About the Standards

This document sets out national standards for membership and accreditation of financial counsellors in Australia.

This is the second version of the standards and supersedes the 2015 version.

Financial counselling is a profession, with financial counsellors providing essential support and advocacy to people in hardship. The national membership standards are the basis for the shared identity of the profession and are underpinned by the Australian Financial Counselling Code of Ethical Practice. To this end, we have common standards for entry into, and ongoing membership of, the profession.

Having common standards ensures that financial counsellors are competent and remain so, and that clients will receive a consistent, high quality service.

The standards have been agreed by the State and Territory financial counselling associations:

- Financial Counselling Tasmania (FCT)
- Financial Counselling Victoria (FCVic)
- Financial Counsellors Association of NSW (FCAN)
- Financial Counsellors ACT (FC-ACT)
- Financial Counsellors Association of QLD (FCAQ)
- South Australian Financial Counsellors Association (SAFCA) (includes NT)
- Financial Counsellors Association of WA (FCAWA)

Financial counselling is a national profession and the development of national standards is consistent with this.

Interaction of the Standards with the Regulatory Framework

There are two types of licence that may apply to the work of financial counsellors.

- An Australian Financial Services Licence if you give advice about financial products. This obligation is imposed by the *Corporations Act 2001*.
- An Australian Credit Licence if you provide credit services. This obligation is imposed by the *National Consumer Credit Protection Act 2009*.

The Australian Securities and Investments Commission operates both of these licensing schemes.

Financial counselling services are exempt from holding both of these licences, but the exemptions are subject to strict conditions. Broadly, the exemptions for both licences require that the financial counselling agency:

- Does not charge any fees or receive any remuneration arising from the financial counselling service
- Does not provide any financial product advice or credit activity outside the exemption
- Ensures that its financial counsellors have appropriate training and adequate skills and knowledge
- Ensures that its financial counsellors are a member of, or eligible for membership of, a financial counselling association.

The national standards are therefore an important link with the exemption from licensing for agencies.
